5 TOPLUMSAL
CİNSİYET EŞİTLİĞİ

"Toplumsal Cinsiyet Eşitliği" başlığı da toplumsal cinsiyet eşitliğini sağlamak ve tüm kadınlar ile kız çocuklarını güçlendirmek amacıyla belirlenmiştir. Kadınlar ve kız çocuklarının güçlendirilmesinin çarpan etkisi yarattığı ve ekonomik büyümeyi ve her alanda gelişmeyi hızlandırdığı defalarca kanıtlanmıştır. Bu küresel amaç, kadınlara ve kız çocuklarına karşı ayrımcılığı her yerde ortadan kaldırmayı hedefliyor. Bazı bölgelerde işgücü piyasasında hala büyük eşitsizlikler var, kadınlar hala işe eşit erişime sahip değiller. Cinsel şiddet ve istismar, ücretsiz bakım ve ev işlerinin eşitsiz bölüşümü ve kamu görevlerinde ayrımcılık hala büyük engel teşkil ediyor. Günümüzde kamu görevindeki kadın sayısı her zamankinden daha yüksek; ancak kadın liderlerin teşvik edilmesi, toplumsal cinsiyet eşitliğini daha ileriye götürecektir. Politikalar ve mevzuatın güçlendirilmesine katkı sağlayacaktır.

SOCIAL SUSTAINABILITY INTERVIEW: THE ROLE OF WOMEN IN ENTREPRENEURSHIP

During the interview organized by the Sustainability Student Community and Erciyes Technopark Inc., Gül Önder Özüberk gave a talk on “The Role of Women in Entrepreneurship” and inspired our students by telling her experiences and projects.

INTERVIEW ON SOCIAL SUSTAINABILITY: THE ROLE OF WOMEN IN CITIES

During the interview on Zoom organized by the Sustainability Student Community, Prof. Dr. Nilüfer Negiz, Head of the Department of Political Science and Public Administration at Süleyman Demirel University, made an informative presentation on “Urban Development in the Context of Gender in Türkiye and the Visibility of Women in the City: A SEGE Based Field Research” within the scope of TUBITAK 1001 - Scientific and Technological Research Projects Funding Program.

The study, which was conducted in Antalya, Yalova, Zonguldak, Afyon, Gaziantep, Malatya, Çankırı, Şanlıurfa and Kars, which are at different development levels in Türkiye, obtained data about women who are/are not visible in the cities determined by the interview and survey technique, shared how it is reflected on women's visibility in urban public space, how and to what extent it is still effective in today's cities. In addition, the suggestions to ensure further equal participation in political, economic and social contexts as a way to increase the women's visibility in cities were shared.

GENDER EQUALITY PLAN 2023-2028

Erciyes University is an institution that provides accredited education and training services at international standards, produces innovative knowledge and technology through R&D studies, transforms the knowledge and technology it produces into social contribution, is a pioneer in its fields of activity, is committed to its core values and is sensitive to the environment.

Erciyes University has set the goal of raising self-confident individuals who conduct research, develop themselves in scientific fields, question and think globally. Considering the university's development efforts and determination, it aims to reach world standards in the fields of education, research, innovation and culture. In this context, its priority is to train qualified students and researchers, increase national and international collaborations, increase the impact of research results and international recognition.
